Ethel, LLC Announces Software Compatibility with Windows Vista

ARLINGTON, VA March 1, 2007 - Ethel, LLC, a developer of website filtering solutions such as those offered through www.problempoker.com, has announced it's compatibility with Microsoft's latest operating system, Windows Vista, which was released on January 1, 2007.

Ethel, LLC attested that its products have been fully tested under Windows Vista and works flawlessly - right from the install process to actually running the products.

Windows Vista is the latest version of Microsoft Windows, a series of operating systems produced by Microsoft for use on personal computers, including home and business desktops, laptops, net-books, tablet PCs and media center PCs.

About Ethel, LLC
